Summary

Motivated and detail-oriented Backend Developer with hands-on experience in building web applications using Node.js, Express, and Next.js. As a fresher, I bring a strong foundation in backend logic, API development, and database integration, paired with a continuous learning mindset. Known for excellent communication, collaboration, and problem-solving abilities, I thrive in team environments and take pride in writing clean, maintainable code. I am excited to contribute to dynamic projects and grow as a developer in a professional setting.

Quick Guide

- **Core Skills:** Node.js, Express.js, Next.js (API Routes & SSR), JavaScript (ES6+)
- **Database:** MongoDB, Mongoose
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, npm
- **API Experience:** RESTful API development and integration
- **Basic Frontend:** HTML5, CSS3, React basics (via Next.js), TailwindCSS
- **Soft Skills:** Strong communication, teamwork, problem-solving, adaptability
- **Learning Focus:** Authentication, JWT, deployment, performance optimization

Education

B.Tech Dr. APJ Abdul Kalam Technical University , Information Technology	October 2023 – July 2027*
• GPA: 7.7 • Coursework: Computer Architecture, JAVA, C, Python, Data Structures, Theory of Computation, Logics	
Intermediate City Montessori School , Lucknow , PCM	2022
• Percentage: 92 • Coursework: Java, Mathematics, Physics, Chemistry, English	

Experience

Machine Learning Center of Excellence, AKGEC , Backend Developer	Ghaziabad, Uttar Pradesh, October 2024- Current
• Developed and maintained backend functionality for society projects and events using Node.js and Express • Collaborated with frontend and design teams to build full-stack web applications • Participated in peer code reviews and shared best practices in weekly team meetings • Contributed to collaborative coding projects and workshops • Collaborated with team members to plan technical events and knowledge-sharing meetups • Engaged in discussions around best practices in software development	

Projects

Full Stack NextJS Authentication System

- Built a full-stack authentication system using **Next.js**, implementing user registration, login, protected routes, and JWT-based session handling. Integrated backend logic with MongoDB and ensured secure API communication
- Tools Used: NextJS, TypeScript, JWT , MongoDB, Javascript, TailwindCSS

<https://github.com/Shaurya130/nextjs-auth> 

Video Platform Backend System

- Built the backend for a video platform using Node.js and Express, enabling features like user registration, video publishing, comment and like systems, playlist creation, and personalized user dashboards. Used RESTful APIs and MongoDB for data management.
- Tools Used: Javascript, MongoDB, ExpressJS

Technologies

Languages: C++, C, Java, Javascript(ES6+), Typescript(basic), HTML, CSS

Technologies: NodeJS, MongoDB, ExpressJS, NextJS, TailwindCSS, Git, GitHub, Postman, VS code, Vercel, Render, .env, JWT

Certifications

Domain: Blockchain and its applications

Certificate Provider: NPTEL – IIT Kharagpur,

Brief: Completed an in-depth course on **Blockchain and Its Applications**, covering core concepts such as distributed ledger technology, consensus mechanisms (PoW, PoS), smart contracts, cryptocurrency fundamentals, and real-world blockchain use cases. Developed a solid understanding of blockchain architecture, decentralization, and its impact across industries.
